

Vourity has Launched a Cloud-Based Access System Powered by PAX's IM30 Unattended Payment Terminal

(Hong Kong, PRC, 14 September 2020) **PAX Global Technology Limited** ("PAX" or the "Company" or the "Group", HKSE stock code: 00327.HK), one of the world's leading providers of electronic payment terminal ("E-payment terminal") solutions and related services, has partnered with Vourity, a Swedish multinational provider of unattended sales, payments and delivery systems.

Vourity POS 3 is an "All-in-One" Self-service Payment and Point of Service Terminal. The cloud service together with PAX IM30 terminals can be used to handle payments in vending machines, sales in self-service retail shops with "self-checkout", redemption of digital vouchers and building access control etc. All features are dynamically enabled and centrally managed from Vourity Cloud.

Hans Nottehed, Chief Technology Officer and Founder at Vourity, commented, "We are delighted to have found PAX as a partner that shares our vision and is able to support the global rollout of our innovative platform and suite of services."

Paul King, Business Development Executive for Unattended Solutions at PAX, said, "Vourity has designed a polished, flexible and professional user interaction that really demonstrates the power and enhanced features of the PAX IM30. The IM30 was selected by Vourity because it is a new-generation Android-powered Unattended Payment Terminal with large touchscreen, inbuilt camera and scanner, and packed with all the latest mandatory industry certifications."
