

Boris Johnson pays with PAX A920 to support Poppy Appeal fundraiser

(Hong Kong, PRC, 18 November 2020) **PAX Global Technology Limited** (“PAX” or the “Company” or the “Group”, HKSE stock code: 00327.HK), one of the world’s leading providers of electronic payment terminal (“E-payment terminal”) solutions and related services, was proud to see PAX A920 Android SmartPOS making its first ever appearance in number 10 Downing Street, as part of the Poppy Appeal fundraiser.

This is the Royal British Legion’s biggest campaign to support and remember those who have given their lives in battle. The Prime Minister of the United Kingdom, Boris Johnson, supported the fundraising by buying a poppy, tapping his contactless card on the PAX A920 to complete the transaction.

Using the POSitive payment application provided by PAX UK and deployed in partnership with our partners for charitable organisations, the stylish looking A920 is a new-generation all-in-one device combining smartphone-like features with secure payments, allowing consumers to transact in all kinds of ways, including prevailing popular methods of contactless cards and mobile wallets.

Mark O’Flynn, Sales Director for the EMEA region at PAX commented, “We are really glad to see the Royal British Legion using PAX terminals to help fundraise their annual Poppy Appeal. We also appreciate the close collaboration with Secure Retail and their partners in implementing a secure, engaging and contactless payment solution for the Royal British Legion.”
